NATIONAL HOE SPINER FIELD TRIAL CLUB NEWS

...just received a mimeograph machine for the club via air express...  
of... I have now been left behind while the plane takes Tom and Glenn to visit  
Mr. Miller at Grand Ledge. (Nice way for Glenn to celebrate his 14th birthday).  
instructions were to prepare a good meal and write a newsletter. So after giving the  
Col.'s Lady a bath (must have gotten those fleas from the Moffat dogs, I realize) and  
preparing the food I have no excuse but to pass along the news that has been sent our  
way.

Haven't really had a chance to hear much about the Bean-Flythe-Schnettler fishing trip  
of the week of the 17th but don't believe we will since a "generally" good source of  
info indicated that only Marilyn knows how to catch them. Our Steve is off to North  
Bay area of Canada for two weeks of fishing for the big ones and then we plan to check  
all of these various tales of North Carolina including the quail hunting, women throwin  
wood at good red dogs and all!

Good news from Lil Lewis was that the two young dogs they lost while attending the  
National are back with them and none the worse for wear and after their experience on  
their own more willing to listen to their masters. It seems they were spotted by the  
contracting builder erecting new accommodations to replace those two little buildings  
out back the club house (more good news!) who contacted the conservation man. They  
were kind enough to care for them until the Lewis' could return to Ohio for them. So  
nice to hear about good people.

Middle Atlantic States Regional (Region No. 2) will hold their annual meeting Sunday,  
June 21 at Shankweiler's Hotel, just off Route 22 at the Fogelsville Exchange west of  
Allentown. This is their meeting to elect officers and take care of region business.  
No club had filed for application for Championship consideration except for the East  
Penn Association along with an invitation from North Montour to use their grounds.

Van Eye, 1971 43 Kansas City, 10, also

April 15 by units of Shyrest (sired by Mr. J. Leary, to a

champion in each of the 6 generations) 1975. Dr. Van also notes that the

club is having its annual meeting at

kindly sent the article from Field and Stone with the new

two dogs pictures were undoubtedly of LeGrande-berry

please send me the correct address someone for Fred

1964 prior to our trial and it seems I have nothing but

the rest of you members with dues to pay--please

continue enjoying your country. If you know of an interested party

to join us by sending in 5 or we'll be glad to send them news

of time basis.

# # #

as yet I have not received a single copy of anybody's club publication other than almost

old sample copy of the Ann. Red Jiggins which I also passed along 1962 information

ask your club to remember us--area news will be available and it had

the type of paper being published. I beg your pardon, Dr. Van Eye has sent

Colleen Irish Setter Club news faithfully. Now with a mimeograph

will try to see that you have all news when it is timely and as often as you

to us. After this news letter I will have more time to type with more care

directly on the date as I have had to do with the previous papers.

electric typewriters are also under consideration. If any of our members have

of such machines at a reasonable cost let us know. I will be glad to

it will give us a better looking standard
