Dear Bob

By this time I hope you have seen Gabsky and liked her, I received your cheque for the freight - many thanks!! Tomorrow I leave for Norway - a little nervous about the skiing - but lets hope I'll have no broken bones on my return. I am bringing with me some frozen semen from Captain - the dog who got his Champion status this spring (Half sister to Gabsky x Jeanne) the President of the Norsk Norsksetterklub shot over him this January and thought he had something to offer their dog - have you any experience of this Is it carried out in the States at all. It could make the world a very small place and help improve all our dogs. I would really like to hear your views on this. I think I got your friend Jennings sorted out with his red and whites and I wish him luck with them I've yet to see a good one!!

Best Regards

Lan.

Bob

Sorry for not confirming sooner that  
my wife and I would love to come  
to the Green River Trials next fall. I'm  
really looking forward to it, how soon  
do you want dates of arrival and  
departures?

Ray.
