Dear Bob,

Home again and back to work after a most enjoyable holiday. Thank you kindly for all your efforts on our behalf, it took a lot of organisation and money and I doubt that I gave a great return for your investment by judging the Walking Shooting dog trial. However I enjoyed myself greatly, enjoyed meeting all the people and seeing the dog. I really enjoyed seeing the Green Liver Reserve and all its workings. I must of all was happy to meet you after our long correspondance and enjoyed meeting you and talking with you perhaps more than anything else during my stay. I liked Don and hope that he got back safely to Graytown. Hopefully some day you and he will come to Ireland and allow us to return your hospitality.

About the dogs boots, frankly I think there has been too much out crossing and the expected loss of type has been the result. I also think that the club should actively get involved in bringing in new faces, this is a major problem as I will know from my experiences with the Irish Red Setter Club.

I was sorry not to see Gabby, but she looked good and hope that she keeps improving and will be of some benefit to you, if you wish to have a puppy from Ruar's Jennie, let me know and I'll put your name on one of them.

Again many thanks for all your kindness and hospitality. We really had a lovely time

Regards

Laur.
